

NEWS FROM ALL THE WORLD TOLD BRIEFLY FOR BUSY READERS

COLOMBIAN SENATE

MOB KILLS CONVICTS
AND DEPUTY SHERIFF

Wyoming Lynchers Threaten Further Violence

RED LODGE, Mont., July 20.—John Gorman, who killed his brother about a year ago and ran off with his brother's wife, and a man named Walters, who killed a widow named Hoover at the Hot Springs two years ago, because she refused to marry him, were lynched at Basin, Wyo., yesterday. C. E. Pierce, a deputy sheriff, was killed in the attack on the jail.

Sheriff Fenton, of Big Horn county, who has arrested a number of prominent cattlemen near Thermopolis, has appealed to the governor of Wyoming for assistance of the militia in getting his prisoners to Basin.

It was reported to Sheriff Fenton last Wednesday morning that a mob was coming up to Basin from Hattiesville and Tonsil to lynch Gorman and Walters; and the sheriff took these two and a horse thief from jail and secreted them in a gully under guard of Deputy Sheriffs Alston and Pierce.

Gorman managed to slip his handcuffs and make his escape. He swam the Big Horn River, and made for the mountains. A posse was quickly organized and Gorman was recaptured about fifty miles from Basin.

Saturday night a mob proceeded at once to the county jail and fired a volley into the jail. Deputy Pierce and Special Deputy Meade were guarding the prisoners at the time. One bullet grazed Meade's shoulder and entered Pierce's head. Members of the mob then tore up the telephone poles and battered the jail doors down.

SNOWFALL AND FIERCE
GALE AT NEWPORT

NEWPORT, July 20.—There was a fall of fine snow in Newport soon after midnight Saturday night, an accompaniment to the big storm, which was one of the worst that has ever visited this section. The snow flurry was brief but lively and is attested to by many who happened to be out at the moment of so remarkable an atmospheric condition for July. The storm was of rain driven by a fierce gale, which destroyed flower beds, and devastated the trees of lawns and woodland.

RUSSIA OPPOSES
OPENING OF WUJU

YOKOHAMA, July 20.—M. Pavloff, the Russian minister at Seoul, the capital of Korea, has had an audience with the Emperor of Korea, in which he opposed the opening of Wiju, the port on the Yalu River, the opening of which was asked by Great Britain and Japan.

HORSE'S HOOF BLOWN OFF:
STEPS ON DYNAMITE CAP

TRENTON, July 20.—J. H. Romain and his son were out driving yesterday with a \$1,600 team, when one of the horses stepped on a dynamite cartridge, and one of his hoofs was blown off. The men were hurled out but not injured. After the accident the horses started to run away, and when finally caught the injured horse had to be shot. The cartridge is supposed to have been dropped by Italians who were blasting in the vicinity.

ON BANK BUILDING HE
SEES VISION OF SAVIOUR

KNOXVILLE, Tenn., July 20.—On the dark wall of the six-story East Tennessee National Bank building, Ernest Limestone, a local leader of the Salvation Army, says he saw a vision of Jesus Christ on the cross Saturday night, and from an early hour in the night until near the break of day he knelt in the streets and prayed. Half way to the top of the building the darkness was cut by a long line of light. Nearer the ground the deep shadows were broken by stray rays of light from an arc light, and it was in this place that Limestone directed his gaze.

CROSSED WIRES PLAY
CRUEL JOKE ON RABBI

POTTSVILLE, Pa., July 20.—Crossed telephone wires yesterday played a cruel joke upon the Rev. Samuel Spero, rabbi of Oheb Sodek Jewish congregation, of this place, and caused great excitement throughout the entire community. The rabbi's wife was expected home from a suburban point. The rabbi received a call to the phone. Some one on the other end of the line said, "Your wife has just—" and then the wire was crossed with another one and he heard a voice saying: "Yes, she has just been killed." After this wire connection was cut off. The family was preparing to receive the dead body of Mrs. Spero, when she, in the best state of health, walked into the house.

MR. PLATT WANTS
ALDRICH ON TICKET

Suggests Rhode Island Man for Second Place.

NEW YORK, July 20.—Senator Thomas C. Platt suggested yesterday that his colleague, Senator Nelson W. Aldrich, of Rhode Island, would make a strong candidate for Vice President on the Republican national ticket this year. The suggestion was brought out by the announcement of Gov. Richard Yates, of Illinois, on his return from Europe on Saturday, that he was not a candidate for second place on the Republican ticket. Coming after the refusal of Senator Fairbanks, of Indiana, at Manhattan Beach, two weeks ago, to permit himself to be looked upon as an aspirant for the office, the refusal of Governor Yates to allow his name to be included in the list of possibilities narrows the field.

DUBLIN IS EXCITED
OVER ROYAL VISIT

LONDON, July 20.—Excitement in Dublin increases hourly, and by Tuesday, when the King and Queen arrive, the enthusiasm should be great indeed. People are pouring into the city by train and boat. On Tuesday the scene promises to be a very brilliant one. More vessels of the fleet are to be seen in Kingstown Harbor. Among them is the Royal Sovereign, with Capt. Alfred Paget on board. The public entry of the King and Queen will be imposing. In the first carriage will be seated the Lord Lieutenant and Princess Victoria, with the King and Queen, the Duke of Connaught, and General Morton riding on the right of the carriage.

SEARCHES EUROPE
FOR AN OLD ESSAY

ITHACA, July 20.—Prof. Willard Fiske, Cornell University's first librarian, after fifty years of fruitless search for a lost manuscript, has gone to Europe to continue the hunt. He is now in Copenhagen, Denmark, where he is looking through the archives while Mr. Harris, of Cornell, is making a search through this country. The manuscript contains the first mention of chess by any writer in America. The treatise was written by the Rev. Lewis Roux, 1734.

CUNARD LINE TO BE
EXCLUSIVELY BRITISH

LIVERPOOL, July 20.—The directors of the Cunard Steamship Company called a special meeting of the shareholders for July 29, to consider a change in the articles of association with a view to preventing foreigners from becoming directors or principal officers of the company. Other provisions will insure that the company will remain exclusively British, and also increase the capital by the creation of a new share worth \$100, called the "government share," which will be issued only to a nominee of the government.

WHOLE TRAIN FALLS
OVER EMBANKMENT

MIDDLETOWN, N. Y., July 20.—In a wreck on the Scranton branch of the New York, Ontario and Western Railroad, near Preston Park, early yesterday morning, forty-nine loaded coal cars and an engine went down an embankment. The engine driver, named Terry, and the fireman, named Burke, were injured, but it is thought not fatally. The accident which occurred on a steep mountain grade, was due, it is said, to the inability of the engine driver to shut off steam, owing to a defect in the working of the throttle, and also to the failure of the air brakes.

WHISTLER'S DEATH
DUE TO PAROXYSM

LONDON, July 20.—It has been ascertained that the late James McNeill Whistler died under peculiarly distressing circumstances. He had been ill for a year, but his condition had improved to such an extent that he ordered a cab to go for a drive. As he was about to leave his house, in Chelsea, he was seized with a fit. He recovered temporarily, but was the victim of another paroxysm from which he died. Three eminent London physicians were summoned at the first attack, but they were unable to afford him any relief. The arrangements for the funeral, which is expected to take place tomorrow, have been made.

ROYAL EXPLORER
COMING ON A VISIT

ROME, July 20.—Prince Luigi, the Duke of the Abruzzi, nephew of the late King Humbert, will now visit the United States. The famous young explorer will reach American shores on board his cruiser Liguria and will stop at several Atlantic coast ports.

RUSSIA AND JAPAN
SEEM ON EVE OF WAR

St. Petersburg Trying to Deprive Island of Allies.

PEKIN, July 20.—According to diplomats here, the greatest factor in the Eastern situation is the increasing danger of war between Russia and Japan. They believe it is becoming plain that Russia is willing to fight Japan if convinced that no other powers will assist her.

The Russians are confident of their ability to easily defeat Japan and are said to be anxious to settle definitely her position in Eastern politics and end her ambitions to oppose Russia's progress in Manchuria.

BEEF TRUST CASES
GO TO SUPREME COURT

CHICAGO, Ill., July 20.—The Chicago packing firms made defendants in the Beef Trust cases have appealed the suit to the Supreme Court of the United States, the order being entered by Judge Grosscup after a conference with Attorney John S. Miller, representing the packers, and United States District Attorney Bethea, who conducted the prosecution. The six defendant firms who took the appeal are Armour & Co., Swift & Co., the Nelson Morris Company, the Hammond Packing Company, the Cudahy Packing Company, and Schwarzschild & Sulzberger.

SOLD BY CLARENCE MACKAY.

SAN FRANCISCO, July 20.—Clarence Mackay and his wife have deeded their half of Nevada Block, at Pine and Montgomery Streets, to the Nevada Bank corporation. This ends the ownership of the Mackays in the historic building erected by Mackay, Flood Fair, and O'Brien in the height of the bonanza excitement in 1876.

JEWIS IN UNIVERSITY
ARE TREATED FAIRLY

ATLANTIC CITY, N. J., July 20.—The Jewish Chautauqua Assembly yesterday was devoted to a discussion of Jewish students and their relation to Jewish problems. "The Attitude of the University Man to Religion," was the subject of the address delivered by Ralph J. Schwarz, of Tulane University, New Orleans. Horace Stern, of the University of Pennsylvania, read a paper on the status of the Jewish student at that institution. He said he found that so far as the university was concerned in an official capacity, there was no reason for supposing that there was any prejudice against Jews as such. He pointed out the fact that there were men of Jewish faith in the faculty; that students took a prominent part and received high honors.

HER "BURIAL ALIVE"
NEARLY PROVED TRUE

PHILADELPHIA, Pa., July 20.—Lying buried in a grave six feet under ground, a woman almost lost her life Saturday by drowning. She is known as Mme. Lavelle, and was "buried" in Woodlawn Park, Camden, Friday, a crowd being present. Mme. Lavelle's intention was to remain under ground until Sunday. She is the "subject" of a man named Holt, who has been giving exhibitions of "burial alive." The woman spent Friday night in her grave, and preparations had been made for a gala day, when suddenly the big storm came up. The gale was so violent that nobody ventured to the place except Mr. Holt. Mme. Lavelle was brought to the surface after half an hour's labor.

MANY SNAKES ESCAPE
AND OVERRUN A TOWN

ALTOONA, Pa., July 20.—The little town of Highland Fling, six miles north of this city, is in consternation over the accidental escape of eighty-eight big rattlesnakes which J. C. Albright had collected for an Eastern agency. None of the reptiles measured less than four feet. They were lost accidentally. Since then the little mountain town has been overrun with rattlers.

MAFIA SUSPECT IN JAIL.

NEWARK, N. J., July 20.—Alfonso Marcello, who recently arrived in this country, and who is said to be a member of the Mafia, who came here to seek revenge, is a prisoner here. He was arrested late Saturday night by Police Detective Dauber while attempting to shoot another Italian on River Street.

FIGHTS THE TREATY

The Canal Convention Is Now Making Progress.

PANAMA, Colombia, via Galveston, Tex., July 20.—Recent mail advices have been received here from Bogota regarding the canal treaty situation in congress.

Debate on the canal treaty has become quieter, but only slow progress is made. It is generally admitted that the strong opposition to ratification is in the senate, on account of Senator Caro. In the house the opposition is much less. President Marroquin is reported as having admitted that there is strong hostility to the treaty in congress, but as adding that more difficult affairs have been carried through congress before.

It is declared that Senator Caro's original filibustering tactics against the treaty and his efforts to make it a political issue appear to be complete failures, indicating that he is politically weak, notwithstanding his control of one-third of the national senate who were elected in his term as president of the republic. Their support is of no practical value to Senator Caro, it is asserted, because the present session of congress is extraordinary, and discusses only the subjects submitted by the Marroquin administration.

LEANED FROM HIS WINDOW
AND FELL TO THE GROUND

Harry Spofford, sixty-five years old, was found yesterday morning lying in an unconscious condition beneath the window of his bedroom, at 1627 Marion Street northwest. It is not known how he got there, as he is as yet partially conscious, but it is supposed that he leaned out of the window in an effort to find cool air, lost his balance and fell. He was removed to Freedman's Hospital. The physicians there have not as yet been able to completely diagnose the case, but fear he may have sustained internal injuries. His condition is critical, especially in view of his advanced age.

NEWS OF RAILROADS
AND OF RAILROAD MEN

Great Display.

It is the intention of the Pennsylvania Railroad to make a great display at the St. Louis Exposition. One of the features of the exhibit is to be a complete locomotive testing plant. It is the plan to have this plant in operation during all of the exposition so that the engineers, railroad men generally, and others interested in railroads may have an opportunity of witnessing a practical demonstration of the testing of locomotives.

The officers of the road who are to be in charge of the affair are to use a passenger, a freight, and a shifting engine with which to demonstrate the work to be done. These are to be tested as to traction, speed power, and valve motion. It is said that the only testing plant of the kind in the country is the one at Purdue University. The Pennsylvania exhibit is to be 50 per cent larger than this.

Coal Roads Consolidated.

The Pennsylvania and Northwestern, the Cambria and Clearfield, and a number of other small railroads in the Keystone State which are controlled by the Pennsylvania system have been consolidated under one management.

Returns to the City.

Col. L. S. Brown, the general agent of the Southern, who has been in New York on business, returned to Washington last night. He looked over the subway as an expert railroad man, and he said concerning it: "The undertaking is one of the greatest pieces of railroad engineering this country has ever known. Fifteen miles of great tunnel have been cut through solid rock. It is expected that the new rapid transit system is going to be in operation in about eighteen months, and New Yorkers have reason to be proud of it."

"The Royal Blue."

The Baltimore and Ohio has issued "The Royal Blue Magazine" for July. The publication deals with the beauties of the mountain and seaside resorts reached by the system. It is a pretentious affair, the half-tone illustrations and the typographical work being equal to if not much better than many of the regular monthly magazines. In addition to describing the resorts, the magazine contains a whole lot of interesting reading matter.

Plans of the Elks.

The local lodge of Elks have arranged with the Baltimore and Ohio for a special train to take them over to the big affair in Baltimore Wednesday. Traveling Passenger Agent H. P. Baldwin, of the Baltimore and Ohio is to have charge of the train.

Russia's Railway Interests.

The extent with which the government controls the railroads in Russia is shown in a report made by Consul General Richard Guenther, of Frankfurt, Germany. He gives to the Department of State the following figures:

Russia and 1,541 on the Asiatic government lines, as against 3,853 of the former and 413 of the latter owned by private trunk lines. The total number of mail cars in Russia is 521, and of baggage cars, 1,582. The total carrying capacity of the freight cars is set down at 4,190,751 tons.

Opportunities in the South.

The "Southern Field" for July devotes considerable space to pointing out the irresistible tendency of great interests which are geographically far apart—like the meat-packing and cotton-manufacturing interests—to come together in the South and unite along lines of more economical production.

In line with this thought the paper addresses this appeal to the Northern and Western farmers:

"The relation of cotton and wool in the hands of the manufacturer, the merchant, and the consumer is obvious and intimate. This relationship should logically begin at the point of first production, in adjoining fields on the same home farm, in close proximity to the local mill, in the only section of this country where the two great textiles may be produced side by side—the South."

"The Northern and Western farmers should feel more than a passing interest in the revolution which is transferring the great textile interests of the country to the South—self-interest should make him a part of that revolution."

The paper describes the life of the little colony of Waldenses, on the Southern Railway, at Valdese, N. C., and points to their remarkable success under exceptional difficulties as a signal indication of the foreign colony idea—where the right sort of material is selected.

The paper comes to the assistance of the prospector and investor with pertinent observations and suggestions touching business opportunities at various points in all the sections traversed by the great and growing Southern Railway system.

May Come East.

It is reported that Superintendent Alexander Robertson, of the middle division of the Wabash, is to leave that road August 1 next to take a more important position in the East with the Gould system. He has been for the past week with George Gould and President Ramsey in the East.

New B. & O. Bridge.

The work of erecting the new bridge for the Baltimore and Ohio over the Big Monocacy River at Dickersons, is to be begun next week. The masonry construction has been contracted for by a Baltimore firm, while the steel work is to be done by the American Bridge Company. The bridge is to be one of the largest on the lines of the Baltimore and Ohio.

Mr. Fuller Returns.

H. W. Fuller, general passenger agent of the Chesapeake and Ohio has returned from his trip to New York, where he held a conference with several railroad officers. He also inspected the new dining cars, which the railroad is operating on the trains between Washington and New York.

ITEMS OF INTEREST
FROM NEARBY STATESMARYLAND.
ANNAPOLIS.

The Anne Arundel Democratic primaries Saturday resulted in placing control of the convention in the hands of the Wells-Bannon combination. The convention will meet July 28. The only contest likely to be made will be over the nomination for sheriff.

THROUGHOUT THE STATE.

The contract for the construction of the sixty-five-mile connecting link between the West Virginia Central, at Cumberland, and the Western Maryland, at Cherry Run, has been let to Degnon & McLean, contractors, of New York.

A frame building in Dover Street, owned by J. Edward Hubbard, and occupied by Howard A. Bradley as a confectionery store and restaurant, was burned at Easton last night. Mr. Bradley's loss is estimated at \$1,600, with an insurance of \$1,200.

Vernie Crane and Oscar L. Smaltz, both of Martinsburg, W. Va., were married at St. Paul's Methodist Episcopal parsonage in Hagerstown Saturday night by the Rev. E. T. Mowbray.

A. Loudon Burks, of Roanoke, contractor for the Norfolk and Western Railway, died suddenly yesterday afternoon in his room at the Hotel Hamilton, Hagerstown, of heart disease, aged forty-seven years.

Ex-Treasurer C. P. Castle, of Prince George county, has sold his farm, near Laurel, to Sylvester Smith, of Anne Arundel county, for \$2,200.

The Hagerstown Printing and Book-binding Company has purchased the Marr property corner Jonathan and Franklin Streets, for \$10,250, and will erect a \$15,000 building on the site.

Col. D. T. E. Casteel, U. S. A., who has been stationed with his regiment at Luzon, Philippine Islands, for sixteen months, is spending his vacation in Oakland, Md., with his sister, Mrs. A. B. Gonder.

GOVERNOR WAS SLOW
TO LEARN OF LYNCHING

ATLANTA, Ga., July 20.—Governor Terrell has broken the record in the matter of unique rewards by offering \$250 for the apprehension of a negro who, it transpires, was lynched ten days ago. The negro was Ed Claus, who attacked Smile Johnson, a young school teacher in McIntosh county, on July 10. He was captured after a chase across seven counties, taken back to the scene of his crime and after he was identified by Miss Johnson, was shot and burned. The lynching was reported in the papers, but Governor Terrell explains that he has no official knowledge that the negro was lynched.

NOTED FIRE CHIEF KILLED.

LOUISVILLE, July 20.—Major Edward Hughes, Louisville's veteran fire chief, was killed yesterday afternoon by a trolley car. He was one of the best known fire chiefs in the country.

VIRGINIA.

J. A. Evans was shot three times about midnight Saturday night at Norfolk because he refused to lend money to Elijah Rouse. Evans is now at the Hospital St. Vincent de Paul in a precarious condition. Rouse is at large.

The Star warehouse, on Spring Street, Danville, operated by C. D. Noel & Co., and the four-story priory, owned by John B. Anderson & Co., were burned Saturday night. The loss is about \$75,000, including between \$15,000 and \$20,000 worth of tobacco.

By the explosion of a large quantity of dynamite and blasting powder stored in a magazine near Pearisburg, Giles county, Saturday, two men were killed outright, sixteen were more or less injured, and about 100 others severely shocked. The two men killed were James Phillips, of Blair, Va., and George Noel, a negro, of Elliston, Va.

Horace M. Pattison, of Dinwiddie county, died at his home, near Ford's Depot, Saturday, aged twenty-five years. Mr. Pattison married Maacha Boisseau, of this city, who survives him with one child.

The schooner Mary Adelaide Randall, light, which was ashore in Chesapeake Bay, was yesterday morning towed into Hampton Roads by the steamer Storm King.

Chester, aged eight years, son of Calvin Bradley, of Dobbin, fell from the side of a house and was impaled upon a wooden picket. The lad is recovering.

The present prospects for an apple crop in Shenandoah county are flattering, and a heavy yield is anticipated. One farmer has sold the products of his orchard as it now stands for \$1,500.

A. B. Coleman, member of the Roanoke city council, has resigned. He is a candidate for the Virginia Legislature. It is believed that A. J. Camp will be elected by the council to succeed Mr. Coleman.

MILLIONAIRE'S WILL
SENDS HIM TO HARVARD

CHICAGO, July 20.—A bequest of \$4,000 in the will of the late Gustavus S. Swift will enable Clifton P. Pledger, a Northwestern divinity student, to realize his ambition of attending Harvard University for four years. Young Pledger was employed by Swift & Co., and the favorable impression he made led to the bequest.

CROWD WAITING TO
LYNCH THIS NEGRO

MONTEVIDEO, Minn., July 20.—A posse in pursuit of a negro who attacked Miss Olson brought him to bay in a wheat field near Milan. He made a desperate resistance, and was badly wounded before he submitted. He will be brought to Montevideo today. Excited crowds are waiting his arrival, and it is believed he will be lynched.

MARYLAND "INSURGENTS"
PUT PLANS ON PAPER

Each Leader in the New Combine Is Expected to Produce His Share of State Delegates.

BALTIMORE, July 20.—Of the most intense interest in Maryland are the doings of the anti-organization Republicans, and every bit of gossip concerning their plans and the new combinations they are forming is eagerly read and made the subject for discussion in city, town and at cross roads.

The purpose of the new combine is to down, first, Senator Louis E. McComas, and, secondly, to gain such a grip on the State organization that all of the Senator's benches will tumble over one another to get a good seat in the band wagon.

The whole scheme of the plotters can now be told in detail, and the purposes are settled ones if there be anything in politics that can "stay put." Here it is:

Every effort will be made to give the gubernatorial nomination to former Governor Lowndes, and then to elect sufficient members of the Legislature to insure the election as United States Senator of William H. Jackson. As the old organization is for Stevenson A. Williams for governor and McComas for Senator, a mighty battle at the primaries is in sight.

That the issue depends on Baltimore city is generally admitted. It will be Congressman Wachter's part of the common enterprise to deliver to the new combine the twenty-eight city delegates in the State convention.

There appears to be no doubt that Senator McComas' goose is cooked to a turn. If the old crowd wins it will win the State and the fight. Hence this city is to be the battle ground.

The State convention will be composed

of 128 members, and it will require the votes of 65 to nominate. The new combine has got to produce the following results, as allotted to each of the chief "conspirators," as the organization calls them:

Mr. Wachter, Baltimore city, 28 delegates; Mr. Lowndes, Garrett and Allegany, 9 delegates; Mr. Mudd, Charles, Howard, Prince George, Anne Arundel and St. Mary, 19 delegates; Mr. Jackson, Wicomico, Worcester and Somerset, 12 delegates. Total, 68 delegates.

Jackson insists that he will carry every county on the Eastern Shore except Dorchester and Talbot, and that the above estimate of the combine's strength is a most conservative one.

It is generally conceded that Mudd will carry out his part of the contract, and may add the scalp of Calvert county to his belt.

So this brings it
